Class Description

Take your wire wrapping skills to the next level!

In this intermediate level class we will cover more complex wire wrapping techniques and structures including making bracelets and more complex rings and pendants. This is a perfect follow-on class from our beginners wire wrapping class and builds on the techniques learnt there. It is also suitable for students who have done some of this style of wire wrapping before and would like to work at a higher level to develop their skills.

In this class you will use a range of square, D-shaped and round wire to give different finishes. All tools and materials will be provided but please feel free to bring your own tools if you prefer to work with them (just make sure they are labelled so they don't get mixed up).

What you need to bring to this class:

For this class you don't need to bring anything but yourself, as everything is provided.
